Internship Offer Letter

Student Name	: Simran Kumari
Stream	: MCA
Branch	: MCA
Institute Name	: Galgotias University
Internship Domain	: Java Full Stack Development + Project
Internship Duration	: June 2026 - August 2026
AICTE Student ID	: STU6a23c0fcee31b1780728060

We are pleased to inform you that you have been selected for the 8-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

Internship Structure & Evaluation:

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

The week wise Structure of the Internship is as Follows:

Week	Module	Description
Week 1	HTML	Learn HTML fundamentals including page structure, semantic elements, forms, tables, and building the foundation of web pages.
Week 2	CSS	Master CSS styling concepts including selectors, box model, positioning, flexbox, grid, and responsive web design.
Week 3	Bootstrap	Build responsive and mobile-first interfaces using Bootstrap components, grid system, and utility classes.
Week 4	JavaScript & jQuery	Learn JavaScript fundamentals, DOM manipulation, events, and enhance development efficiency using jQuery for interactive web applications.
Week 5	Core Java	Understand Java fundamentals including OOP concepts, data types, collections, exception handling, and file handling.
Week 6	Advanced Java	Explore advanced Java concepts including JDBC, Servlets, multithreading, and enterprise-level application development principles.
Week 7	Spring Framework & Spring Boot	Develop enterprise applications using Spring Framework and Spring Boot, covering dependency injection, REST APIs, and application configuration.
Week 8	Hibernate, MySQL & Git	Learn ORM concepts using Hibernate and integrate MySQL database for data persistence and CRUD operations. Manage source code using Git and GitHub, implement branching strategies, and collaborate effectively in team environments.
Project / Internship Grade Point Assessment		

Note: There is no stipend associated with this internship.

We congratulate you on your selection and wish you a successful learning journey.
